D-BOX Releases 2008 Second Quarter Results

Longueuil, Quebec, November 29, 2007 – D-BOX Technologies Inc. (TSX-V: DBO.A), a leading provider of motion technology for immersive home entertainment, today released its financial results for the second quarter ended September 30, 2007.

Q2 2008 Highlights

- 17% revenue growth from the same quarter of the previous year;
- Increased liquidities to \$11 million, following the second closing of a public offering that raised \$1.5 million this quarter;
- Launched retail version of the GP-200 gaming chair at the CEDIA Expo that is now available as an accessory to HP's Voodoo brand of gaming PCs;
- Launched new loveseat-version UMP-200 Universal Motion Platform, which received two commendations, including the *Electronic House* Product of the Year award;
- Concluded agreement with Audiokinetic for the creation of a software tool that enables users to design and embed motion effects in video games.

"We are pleased with our increased revenues for the quarter, a direct result of our sales and marketing initiatives. Also, from their initial launching, the GP-200 gaming chair and the UMP-200 platform have received an overwhelming reception from our customers and have contributed to our revenues increase", said Claude Mc Master, President and CEO of D-BOX Technologies. "Funds raised through our public offering will serve to accelerate current growth and enable us to focus our efforts towards developing new partnerships with important players in the entertainment industry. We have already made progress on this front with the signing of a new license agreement on November 14th, with Lionsgate, the largest independent studio in the U.S."

D-BOX posted \$1,148,733 in operating revenues for the second quarter of 2008, compared to \$980,457 for the same period of the previous year. Operating expenses totaled \$1,287,563 in comparison to last year's operating expenses of \$1,020,026. Net loss came in at \$784,909 (\$0.009 per share), compared to last year's net loss of \$598,727 (\$0.011 per share) for the same period. This progress is due to a significant increase in the portion of revenues derived from D-BOX products compared to revenues coming from the arcade market. The increase in sales of D-BOX products enabled the Company to reduce the percentage of revenues coming from a single major client in the arcade market from 57% of total sales in the same quarter last year, to 26% this quarter. Higher operating expenses were primarily the result of new hires over the past year and expanded sales and marketing activities.

About D-BOX

D-BOX Technologies designs and manufactures high-technology motion systems destined mainly for the entertainment industry. Its unique, patented technology uses motion codes specifically programmed for each film, TV program or video game, resulting in motion that is perfectly synchronized with on-screen action. By forming strong industry alliances, D-BOX's award-winning motion technology is creating a global standard in the entertainment world. For more information, please visit www.d-box.com.

Forward-Looking Statements

Certain statements included herein, including those that express management's expectations or estimates of our future performance, constitute "forward-looking statements" within the meaning of applicable securities laws. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies. We caution that such forward-looking statements involve known and unknown risks, uncertainties and other risks that may cause our actual financial results, performance, or achievements to be materially different from our estimated future results, performance or achievements expressed or implied by those forward-looking statements. Numerous factors could cause actual results to differ materially from those in the forward-looking statements, including without limitation, our ability to achieve increased market acceptance for our product offerings and penetrate new markets; the existence of undetected errors or similar problems in our products; our ability to manage our growth; our ability to compete successfully; potential liabilities; maintaining our intellectual property rights and litigation involving intellectual property rights; our dependence on the expertise of our key personnel; and our access to sufficient capital to fund our future requirements. This list is not exhaustive of the factors that may affect any of our forward-looking statements. Investors are cautioned not to put undue reliance on forward-looking statements. All subsequent written and oral forward-looking statements attributable to D-BOX or persons acting on our behalf are expressly qualified in their entirety by this notice. We disclaim any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Risks and uncertainties about our business are more fully discussed in our Annual Report.
