

D-BOX Innovation Leadership Recognized by the Training and Simulation Community

Longueuil, Québec – November 30, 2015 - D-BOX Technologies Inc. (TSX: DBO), a leader in innovative motion technology, is pleased to announce that it has been recognized again by KMI Media Group in its 2015 Top 100 Simulation and Training Companies for the second year in a row.

KMI Media Group's *'Military Training Technologies'* Top 100 Simulation and Training Companies are recognized as having had a significant impact in the military and training industry throughout the current year. Companies are selected based on criteria that include end-user feedback, innovations and need for the solution.

In addition to being selected in the top 100, D-BOX is awarded a blue ribbon which is associated with companies identified as industry-leading in terms of innovation. By receiving this award, D-BOX joins a select group of companies who have been honored in the past including Lockheed Martin, L3, Northrop Grumman or SAAB Defense and Security.

In 2014, D-BOX received a special mention from KMI Media Group, with a yellow ribbon recognizing D-BOX as one of three "up and coming" companies in the field of simulation and training.

Commenting on this achievement, Claude Mc Master, President and Chief Executive Officer of D-BOX said: "Getting KMI's top 100 Simulation 'up and coming' award last year, and being awarded a blue ribbon as one of the most innovative companies in the simulation and training industry this year is definitely a strong endorsement for D-BOX considering that the defense training community has some of the highest standards". "The need in terms of accuracy and precision of movements that our motion technology can deliver, is being identified as one of the best in this sector. This bodes very well for D-BOX and its future growth in all sectors that require the most immersive experience possible."

D-BOX will showcase its cutting edge simulation and training products at the 2015 I/ITSEC trade show organized by the National Training and Simulation Association which will take place from November 30 to December 4, 2015 in Orlando, Florida.

ABOUT D-BOX

D-BOX Technologies Inc. designs, manufactures and commercialize cutting-edge motion systems intended for the entertainment and industrial markets. This unique and patented technology uses motion effects specifically programmed for each visual content which are sent to a motion system integrated into either a platform, a seat or any other product. The resulting motion is perfectly synchronized with the on-screen action, thus creating an unparalleled realistic immersive experience.

D-BOX[®], D-BOX Motion Code[®], LIVE THE ACTION[®], MOTION ARCHITECTS[®] and MOVE THE WORLD[®] are trademarks of D-BOX Technologies Inc. Other names are for informational purposes only and may be trademarks of their respective owners.
